

**Safety Data Sheet**  
 According to COMMISSION REGULATION (EU) 2020/878  
**BRICOLOVERS MONTO - MAGNETIC EFFECT MONTO 683536\_906**

**SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING**

**1.1 Product identifier:** MONTO BRICOLOVERS - MONTO EFFECTO MAGNETICO 683536\_906

**Other means of identification:**

Irrelevant

**1.2 Relevant identified uses of the substance or mixture and uses advised against:**

Relevant uses (Consumer use): Decorative paint Relevant uses (Professional user): Decorative paint Relevant uses (Industrial user): Decorative paint  
 Uses advised against: All uses not specified in this section or in section 7.3

**1.3 Details of the supplier of the safety data sheet:**

PINTURAS MONTO SAU  
 Carretera de la base militar 11 46163  
 Marines - Valencia - España Tel.: 961648339 -  
 Fax: 961648343 sac@montopinturas.com  
 www.montopinturas.com

**1.4 Telephone number that can be called in case of emergency:**

**SECTION 2: HAZARDS IDENTIFICATION**

**2.1 Classification of the substance or mixture:**

**Regulation No. 1272/2008 (CLP):** According to the provisions of Regulation No. 1272/2008 (CLP), the product is not classified as a hazardous product.

**2.2 Label elements: Regulation No. 1272/2008**

**(CLP): Hazard statements:** Not relevant

**Precautionary**

**statements:** P101: If medical advice is needed, have product container or label at hand.

P102: Keep out of reach of children.

P501: Dispose of contents/container in accordance with the selective collection system applied in your municipality.

**Additional information:**

EUH208: Contains 1,2-benzisothiazol-3(2H)-one. May produce an allergic reaction.

**2.3 Other hazards:**

This product does not contain substances assessed as PBT or vPvB at the limit levels set by the regulation.

Endocrine disrupting properties: The product does not meet the criteria.

\*\*

**SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS**

**3.1 Substances:**

Irrelevant

**3.2 Mixtures:**

**Chemical description:** Miscellaneous product(s)

**Components:**

In accordance with Annex II of Regulation (EC) No 1907/2006, the product contains:

\*\* Changes from the previous version

**SECTION 4: FIRST AID MEASURES**

**4.1 First aid measures:**

Symptoms caused by poisoning with this product may appear after exposure to it, therefore, in case of doubt, direct exposure to the chemical or physical alteration, seek medical attention.

**By inhalation:**

This product does not contain substances classified as hazardous by inhalation, however, in case of symptoms of intoxication, remove the affected person from the exposure area to fresh air. Seek medical attention if symptoms worsen or persist.

**By skin contact:** This

product is not classified as hazardous in contact with skin. However, in case of skin contact, it is recommended to remove contaminated clothing and footwear, rinse the skin or shower the affected person with plenty of cold water and neutral soap. In case of serious conditions, consult a doctor immediately.

**Through eye contact:**

Rinse eyes with plenty of water for at least 15 minutes. If the victim wears contact lenses, they should be removed if they are not stuck to the eyes as additional damage may occur. In all the cases mentioned, after washing, the victim should be urgently transported to a doctor accompanied by the SDS of the product.

**By ingestion / aspiration:**

Immediately seek medical attention, showing the product's SDS. Do not induce vomiting, if this occurs, keep the victim's head tilted forward to avoid ingestion. Keep the victim at rest. Rinse the mouth and throat as there is a risk that they may have been affected by the ingestion of the product.

**4.2 Most important symptoms and effects, both acute and delayed:**

Acute and delayed effects are indicated in paragraphs 2 and 11.

**4.3 Indication of any immediate medical attention and special treatment needed:**

Irrelevant

**SECTION 5: FIRE-FIGHTING MEASURES**

**5.1 Fire extinguishing media:**

**Suitable extinguishing media:**

CONTINUED ON THE NEXT PAGE

**Safety Data Sheet**  
 According to COMMISSION REGULATION (EU) 2020/878  
**BRICOLOVERS MONTO - MAGNETIC EFFECT MONTO 683536\_906**

## SECTION 5: FIRE-FIGHTING MEASURES (Continued)

Non-flammable product under normal conditions of storage, handling and use. In the event of ignition, as a result of improper handling, storage or use, multi-purpose powder extinguishers (class ABC) shall be used preferably, in accordance with the Fire Protection Installations Regulation.

**Unsuitable extinguishing media:**

Irrelevant

**5.2 Special hazards arising from the substance or mixture:**

As a consequence of combustion or thermal decomposition, reaction by-products are generated that can be extremely toxic and, consequently, may present a high health risk.

**5.3 Recommendations for firefighters:** Depending on the

magnitude of the fire, full protective suits and self-contained breathing apparatus may be required. Basic emergency equipment (fireproof beds, first aid kit) should be available.

**Additional provisions:** Follow

the instructions of the Internal Emergency Plan and the Information Sheets on action in case of accidents and other emergencies. Eliminate any source of fire. In case of fire, cool containers and tanks storing the product exposed to flame, explosion or BLEVE caused by high temperatures. Avoid spilling fire extinguishing products into the aquatic environment.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

**6.1 Personal precautions, protective equipment and emergency procedures:**

**For personnel assigned to non-emergency situations:** Leaks will be isolated

provided that this does not involve an additional risk to the persons performing this operation.

**For emergency responders:** Protective equipment should be worn. Remove

persons not properly equipped. See SECTION 8.

**6.2 Environmental precautions:**

It is recommended to avoid both spilling and throwing its packaging into the environment.

**6.3 Methods and material for fire containment and cleaning up:**

It is recommended:

Prevent product from entering drains, sewers or water courses. Absorb spillage using sand or inert absorbent and move to a safe place. Do not absorb sawdust or other combustible absorbents.

Collect the product in suitable containers and dispose of it in accordance with current legislation.

Spills into water or sea: Small spills:

Contain spills using

dikes or similar equipment. Use suitable absorbent materials for collection and treat waste in accordance with regulations in force.

Large spills: If

possible, contain the spill to open water using dikes or similar equipment. If this is not possible, try to control the spread and collect the product by suitable mechanical means. Always consult an expert before using dispersants and ensure that you have the necessary approvals if they are to be used. Dispose of waste in accordance with applicable regulations.

**6.4 References to other sections:**

See points 8 and 13.

## SECTION 7: HANDLING AND STORAGE

**7.1 Precautions for safe handling:**

A.-General precautions

Comply with the legislation in force on the prevention of occupational risks in relation to the handling of loads. Maintain order, cleanliness and dispose of the product using safe measures (chapter 6)

B.-Technical recommendations for the prevention of fires and explosions.

CONTINUED ON THE NEXT PAGE

**Safety Data Sheet**  
 According to COMMISSION REGULATION (EU) 2020/878  
**MONTO BRICOLOVERS - MONTO EFFECT MAGNETICO**  
**683536\_906**

**SECTION 7: HANDLING AND STORAGE (Continued)**

Non-flammable product under normal conditions of storage, handling and use. Transport residues to low speeds to avoid generating electrostatic charges that could affect flammable products.  
 See Chapter 10 for conditions and materials to avoid.

**C.-Technical recommendations for the prevention of ergonomic risks and toxicology.**

Do not drink or eat while handling the product and wash your hands with hand sanitizer after handling.  
 adequate cleaning.

**D.-Technical recommendations to prevent environmental hazards**

It is recommended to have absorbent material available near the product (See Chapter 6.3)

**7.2 Conditions for safe storage, including any incompatibilities:**

**A.-Specific storage requirements**

Minimum temperature: 5 °C

Maximum temperature: 30 °C

**B.-General storage conditions.**

Avoid sources of heat, radiation, static electricity and contact with food products. For more  
 more information see chapter 10.5

**7.3 Specific end use(s):**

Except for the indications already specified, they do not need any special recommendations regarding use.  
 this product.

**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

**8.1 Control parameters:**

Substances whose occupational exposure limit values must be controlled at the workplace:

There are no environmental limit values for the substances that make up the mixture.

**DNEL (Workers):**

Identification	Short exposure		Wide exposure	
	Systemic	lockout	Systemic	lockout
1,2-benzisothiazol-3(2H)-one CAS: 2634-33-5 EC: 220-120-9	Oral	Irrelevant	Irrelevant	Irrelevant
	skin	Irrelevant	Irrelevant	0.966 mg/kg Not applicable
	Inhalation	Irrelevant	Irrelevant	6.81 mg/m³

**DNEL (Population):**

Identification	Short exposure		Wide exposure	
	Systemic	lockout	Systemic	lockout
1,2-benzisothiazol-3(2H)-one CAS: 2634-33-5 EC: 220-120-9	Oral	Irrelevant	Irrelevant	Irrelevant
	skin	Irrelevant	Irrelevant	0.345 mg/kg Not relevant
	Inhalation	Irrelevant	Irrelevant	1.2 mg/m³

**PNECs:**

Identification	PNEC		
	STP	1.03 mg/L 3	Fresh water 0.00403 mg/L
	ground	mg/kg	Sea water 0.000403 mg/L
	Intermittent	0.0011 mg/L	Sediment (Fresh water) 0.0499 mg/kg
	Oral	Irrelevant	Sediment (Marine water) 0.00499 mg/kg

**8.2 Exposure controls:**

**A.-Individual protective measures, such as personal protective equipment**

As a preventive measure, it is recommended to use personal protective equipment which must:  
 carry the "CE" marking. For more information on personal protective equipment (storage,  
 cleaning, use, storage, protection level,...) consult the information leaflet provided by  
 manufacturer. For details see chapter 7.1

**B.-Respiratory protection:**

CONTINUED ON THE NEXT PAGE

According to COMMISSION REGULATION (EU) 2020/878  
**MONTO BRICOLOVERS - MONTO EFFECT MAGNETICO**  
**683536\_906**

**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (Continued)**

icon	EPP	Marked	ECN Standards	Observations
It is mandatory using the mask	Self-filtering mask for particles (Type filter: A)		EN 149:2001+A1:2010	Replace when you notice difficulties with breathing.

**C.-Specific hand protection**

icon	EPP	Marked	ECN Standards	Observations
protection mandatory HAND	Protective gloves against risks minor			Replace gloves at the slightest sign of deterioration. For extended periods of product exposure for users professionals/industrialists, it is recommended use of CE III gloves, in accordance with EN ISO 21420:2020 and EN ISO standards 374-1:2016+A1:2018.

Since the product is a mixture of different materials, the resistance of the glove material cannot be guaranteed. be calculated accurately in advance, therefore they must be checked before application.

**D.-Eye and facial protection**

icon	EPP	Marked	ECN Standards	Observations
protection mandatory face	Goggles splash and/or projections		EN 166:2002 EN ISO 4007:2018	Clean daily and disinfect periodically, according to the instructions manufacturer. It is recommended to use in where there is a risk of splashing.

**E.- Body protection**

icon	EPP	Marked	ECN Standards	Observations
	Workwear			Replace if you notice any signs of deterioration. In the case of periods of prolonged exposure to the product for professional/industrial users, recommends CE III, according to EN ISO standards 6529:2013, EN ISO 6530:2005, EN ISO 13688:2013, EN 464:1994.
	Work shoes non-slip		EN ISO 20347:2022	Replace if you notice any signs of deterioration. In the case of periods of prolonged exposure to the product for professional/industrial users, recommends CE III, according to EN ISO standards 20345:2022 and EN 13832-1:2019.

**F.- Complementary emergency measures**

It is recommended to implement additional emergency equipment at workplaces that are particularly exposed to the product or in situations where risk assessments highlight the need for such measures of equipment.

Emergency measure	standard	Emergency measure	standard
Emergency shower	ANSI Z358-1 ISO 3864-1:2011, ISO 3864-4:2011	Eye wash	FROM 12 899 ISO 3864-1:2011, ISO 3864-4:2011

**Environmental exposure control:**

According to EU legislation on environmental protection, it is recommended to both avoid spillage and disposal of its packaging into the environment. For more information, see chapter 7.1.D

**Volatile organic compounds:**

In application of Law No. 278/2013 (Directive 2010/75/EU), this product has the following characteristics:

VOC(supply): 0.2% weight

VOC concentration at 20 °C: 12.99 kg/m<sup>3</sup> (12.99 g/L)

Average carbon number: 9.5

Average molecular weight: 137.84 g/mol

In application of Government Decision No. 735/2006 (Directive 2004/42/EC), this product ready for use has the following characteristics:

**683536\_906**

**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (Continued)**

VOC concentration at 20 °C: 12.98 kg/m<sup>3</sup> (12.98 g/L)

EU limit value for the product (Cat. AD): 130 g/L (2010)

Components: Irrelevant

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

**9.1 Information on basic physical and chemical properties:**

For complete information see the product data sheet.

**Physical appearance:**

Physical state 20 °C:	Liquid
Appearance:	gummy
Color:	Characteristic
Smell:	Characteristic
Odor acceptance threshold:	Not relevant *

**Volatility:**

Boiling point at atmospheric pressure:	108°C
Vapour pressure 20 °C:	2317 Pa
Vapour pressure 50 °C:	12208.43 Pa (12.21 kPa)
Evaporation rate 20 °C:	Not relevant *

**Product characterization:**

Density 20 °C:	2570.5 kg/m <sup>3</sup>
Relative density 20 °C:	2,616
Dynamic viscosity 20 °C:	10500 mPa·s
Kinematic viscosity 20 °C:	4084.8 mm <sup>2</sup> /s
Kinematic viscosity 40 °C:	>20.5 mm <sup>2</sup> /s
Concentration:	Not relevant *
pH:	Not relevant *
Vapor density 20 °C:	Not relevant *
Partition coefficient: n-octanol/water 20 °C:	Not relevant *
Solubility in water 20 °C:	Not relevant *
Solubility property:	Not relevant *
Decomposition temperature:	Not relevant *
Melting point/freezing point:	Not relevant *

**Flammability:**

Flammability temperature:	Non-flammable (>60 °C)
Flammability (solid, gas):	Not relevant *
Autoignition temperature:	204°C
Lower flammability limit:	Not relevant *
Upper flammability limit:	Not relevant *

**Particle characteristics:**

Median equivalent diameter:	Not relevant *
-----------------------------	----------------

**9.2 Other information:**

**Information on physical hazard classes:**

Explosive properties:	Not relevant *
Oxidizing properties:	Not relevant *

\*Not relevant due to the nature of the product, not providing characteristic information regarding its hazardousness.

CONTINUED ON THE NEXT PAGE

**Safety Data Sheet**  
 According to COMMISSION REGULATION (EU) 2020/878  
**MONTO BRICOLOVERS - MONTO EFFECT MAGNETICO**  
**683536\_906**

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES (Continued)**

Corrosive to metals:	Not relevant *
Heat of combustion:	Not relevant *
Aerosols - total percentages (by mass) of flammable components:	Not relevant *
<b>Other safety features:</b>	
Surface tension 20 °C:	Not relevant *
Refractive index:	Not relevant *

\*Not relevant due to the nature of the product, not providing characteristic information regarding its hazardousness.

**SECTION 10: STABILITY AND REACTIVITY**

**10.1 Reactivity:**

No dangerous reactions are expected if the technical instructions for storing chemical products are followed.  
 Refer to chapter 7 of the Safety Data Sheet.

**10.2 Chemical stability:**

Chemically stable, respecting the indicated conditions of storage, handling and use.

**10.3 Possibility of hazardous reactions:**

Under the indicated conditions, no hazardous reactions that could generate excessive pressure or temperatures are expected.

**10.4 Conditions to avoid:**

Applicable for handling and storage at ambient temperature:

Shock and friction	Contact with air	Heating	Solar light	Moisture
Not applicable	Not applicable	Not applicable	Not applicable	Not applicable

**10.5 Incompatible materials:**

ACID	Water	Oxidizing substances	Combustible materials	Other
Avoid strong acids	Not applicable	Not applicable	Not applicable	Substances to avoid alkalis or strong bases

**10.6 Hazardous decomposition products:**

See section 10.3, 10.4 and 10.5 for specific knowledge of decomposition products.  
 depending on the decomposition conditions, they can be released into complex mixtures of chemicals: carbon dioxide (CO<sub>2</sub>), carbon monoxide and other organic compounds.

**SECTION 11: TOXICOLOGICAL INFORMATION \*\***

**11.1 Information on the hazard classes defined in Regulation (EC) No. 1272/2008:**

There are no experimental data on the mixture regarding its toxicological properties.

**Hazardous health effects:**

In case of repeated, prolonged exposure or at concentrations higher than those established by the exposure limits occupational exposure, adverse health effects may occur depending on the route of exposure

A- Ingestion (acute effect):

- Acute toxicity: Based on available data, the classification criteria are not met, but still present substances classified as dangerous if swallowed. For more information, see chapter 3.
- Corrosivity / Irritability: Based on available data, the classification criteria are not met, however presents substances classified as dangerous by this effect. For more information, see chapter 3.

B- Inhalation (acute effect):

- Acute toxicity: Based on available data, the classification criteria are not met, as there is no evidence of substances classified as dangerous by inhalation. For more information, see chapter 3.
- Corrosivity / Irritability: Based on available data, the classification criteria are not met, as does not contain substances classified as dangerous for this effect. For more information, see chapter 3.

\*\* Changes from the previous version

CONTINUED ON THE NEXT PAGE

 According to COMMISSION REGULATION (EU) 2020/878  
**BRICOLOVERS MONTO - MAGNETIC EFFECT MONTO 683536\_906**

**SECTION 11: TOXICOLOGICAL INFORMATION \*\* (Continued)**

**C- Skin and eye contact (acute effect):**

- Skin contact: Based on available data, the classification criteria are not met, however it does contain substances classified as dangerous in contact with skin. For more information, see section 3.
- Eye contact: Based on available data, the classification criteria are not met, but it does contain substances classified as dangerous for this effect. For more information, see section 3.

**D- CMR effects (carcinogenic, mutagenic and toxic for reproduction):**

- Carcinogenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for the effects described. For more information, see section 3.  
IARC: Not relevant
- Mutagenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information, see section 3.
- Reproductive toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information, see section 3.

**E- Sensitization effect:**

- Respiratory: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous with sensitizing effects. For more information, see chapter 3.
- Dermal: Based on available data, the classification criteria are not met, however it does contain substances classified as dangerous with sensitizing effects. For more information, see section 3.

**F- STOT (specific target organ toxicity) - single exposure:**

Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information, see section 3.

**G- STOT (specific target organ toxicity) - repeated exposure:**

- STOT (specific target organ toxicity) - repeated exposure: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information, see section 3.
- Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information, see section 3.

**H- Aspiration hazard:**

Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information, see section 3.

**Other information:**

Irrelevant

**Specific toxicological information of substances:**

Identification	Acute toxicity		Gender
1,2-benzisothiazol-3(2H)-one CAS: 2634-33-5 EC: 220-120-9	Oral LD50	500 mg/kg	Rat
	Dermal LD50		
	LC50 inhalation		

**11.2 Information on other hazards:**

**Endocrine disrupting properties**

Endocrine disrupting properties: The product does not meet the criteria.

**Other information**

Irrelevant

*\*\* Changes from the previous version*

**SECTION 12: ECOLOGICAL INFORMATION \*\***

There are no experimental data available on the mixture itself regarding its ecotoxicological properties.

**SECTION 13: DISPOSAL CONSIDERATIONS**

**13.1 Waste treatment methods:**

Code	Description	Type of waste (Regulation (EU) No. 1357/2014)
08 01 12 waste paint and varnish other than those mentioned in 08 01 11		It is not dangerous.

**Waste type (Regulation (EU) No 1357/2014):**

Irrelevant

**Waste management (disposal and vaporization):**

Consult the authorized waste handler for recovery and disposal operations according to with Annex 1 and Annex 2 (Directive 2008/98/EC). According to code 15 01 (2014/955/EU, GD 856/2002), in case which the container has come into direct contact with the product, it will be handled in the same way as the product; otherwise, it will be managed as non-hazardous waste. Product waste disposal is done according to the Emergency Ordinance 92/2021 on the waste regime, with subsequent amendments and additions. It is not recommended to throw it in watercourses. See paragraph 6.2.

**Relevant Community provisions on waste:**

In accordance with Annex II of Regulation (EC) No 1907/2006 (REACH), the Community provisions are mentioned or state regulations relating to waste management:

**SECTION 15: REGULATORY INFORMATION**

**15.1 Safety, health and environmental regulations/legislation specific to (specific) substance or mixture concerned:** - Regulation

(EC) No. 528/2012: contains a preservative to protect the initial properties of the treated article. Contains benzoic acid, 1,2-benzisothiazol-3(2H)-one, Pyrithione zinc, (ethylenedioxy) dimethanol, Tetrahydro-1,3,4,6-tetrakis (hydroxymethyl) imidazo [4,5-d] imidazole-2,5 (1H, 3H) -dione.

- Article 95, REGULATION (EU) No. 528/2012: *Amorphous silica gel (112926-00-8) - PT: (18) ; benzoic acid (65-85-0) - PT: (3,4,7,9) ; 1,2-benzisothiazol-3(2H)-one (2634-33-5) - PT: (2,6,9,11,12,13) ; Pyrithione zinc (13463-41-7) - PT: (2,6,7,9,10,21) ; (ethylenedioxy) dimethanol (3586-55-8) - PT: (6,11,12,13) ; Tetrahydro-1,3,4,6-tetrakis(hydroxymethyl)imidazo[4,5-d]imidazole-2,5(1H,3H)-dione (5395-50-6) - PT: (6,11,12,13)*

- Regulation (EU) 2019/1021 on persistent organic pollutants: Not relevant - Regulation (EU) 2024/590 on substances that deplete the ozone layer: Not relevant - REGULATION (EU) No 649/2012 concerning the export and import of dangerous chemicals: Not relevant - Candidate substances for authorisation in Regulation (EC) 1907/2006 (REACH): Not relevant - Substances included in Annex XIV to REACH (authorisation list) and with an expiry date: Not relevant **Seveso III:**

Irrelevant

**Restrictions on the marketing and use of certain dangerous substances and mixtures (Annex XVII of the REACH Regulation, etc...):** Not relevant

**Particular provisions in the field of protection of persons or the environment:** It is recommended to use the data collected in this safety data sheet as input data in a risk assessment of local circumstances, in order to establish the necessary measures to prevent risks for the handling, use, storage and disposal of this product.

**Other legislation:**

Law no. 360/2003 on the regime of dangerous chemical substances and preparations  
Law no. 349/2007 on the reorganization of the institutional framework in the field of chemical substances management Law no. 249/2011 amending art. 4 of Law no. 349/2007 on the reorganization of the institutional framework in the field of chemical substances management Government Decision no. 477/2009 on establishing the sanctions applicable for violating the provisions of Regulation (EC) no. 1,907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) no. 793/93 and Regulation (EC) no. 1.488/94 of the Commission, as well as of the Council Directive 76/769/EEC and of the Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC Law no. 254/2011 amending art. 26 of Law no. 360/2003 on the regime of dangerous chemical substances and preparations Government Decision no. 662/2011 repealing Government Decision no. 347/2003 on the restriction of the placing on the market and use of certain dangerous substances and preparations Emergency Ordinance no. 60/2013 supplementing art. 4 paragraph (1) of Law no. 349/2007 on the reorganization of the institutional framework in the field of chemical substances management

**SECTION 15: REGULATORY INFORMATION (Continued)**

Decision No. 1218/2006 on establishing minimum occupational health and safety requirements to ensure the protection of workers against risks related to the presence of chemical agents Law No. 319/2006 Occupational Health and Safety Law  
Emergency Ordinance 1/2021 amending and supplementing Law No.  
249/2015 on the management of packaging and packaging waste Emergency Ordinance 92/2021 on the waste regime, with subsequent amendments and completions Emergency Ordinance no. 122/2010 on establishing the sanctions applicable for violating the provisions of Regulation (EC) no. 1272/2008 on the classification, labeling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, as well as amending Regulation (EC) no. 1907/2006 Government Decision no. 398/2010 on establishing measures for the application of the provisions of Regulation (EC) no. 1272/2008 on the classification, labeling and packaging of substances and mixtures **15.2 Chemical safety assessment:** The supplier did not carry out the chemical safety assessment

**SECTION 16: OTHER INFORMATION**

**Applicable law:**

This safety data sheet has been prepared in accordance with Annex II-Guidance for the preparation of safety data sheets of Regulation (EC) No 1907/2006 (COMMISSION REGULATION (EU) 2020/878)

**Changes compared to the previous safety data sheet, affecting risk management measures:**

COMMISSION REGULATION (EU) 2020/878

COMPOSITION/INFORMATION ON INGREDIENTS (SECTION 3, SECTION 11, SECTION 12):

- Added substances 1,2-  
benzisothiazol-3(2H)-one (2634-33-5)

**Texts of the regulatory phrases presented in section 3:** The phrases

mentioned do not refer to the product itself, they are for information only and refer to the individual components that appear in section 3

**Regulation No. 1272/2008 (CLP):** Acute

Tox. 4: H302 - Harmful if swallowed.

Aquatic Acute 1: H400 - Very toxic to aquatic life.

Eye Dam. 1: H318 - Causes serious eye damage.

Skin Irrit. 2: H315 - Causes skin irritation.

Skin Sens. 1: H317 - May cause an allergic skin reaction.

**Classification procedure:**

Irrelevant

**Advice on professional training:** A minimum training

for the prevention of professional risks is recommended for the personnel who will handle this product, in order to facilitate the content and interpretation of the data of this safety data sheet, as well as the labeling of the product.

**References to literature and data sources:** <http://echa.europa.eu> <http://eur-lex.europa.eu>

**Abbreviations and acronyms:**

ADR: European Agreement

concerning the International

Carriage of Dangerous Goods by Road IMDG: International Maritime Dangerous Goods Code IATA: International Air

Transport Association ICAO: International Civil Aviation Organization CCO: Chemical

Oxygen Demand BOD5: 5-day Biological Oxygen Demand BCF:

Biocconcentration factor LD50: Lethal Dose 50 LC50: Lethal

Concentration 50 EC50: Effective

Concentration 50 Log Pow: Log Octanol Partition Coefficient Koc:

Partition Coefficient of Organic Carbon

DNEL: Derived No Effect

Level PNEC: Predicted No Effect

Concentration UFI: Unique Formulation

Identifier IARC: International Agency for Research on Cancer

The information contained in this safety data sheet is based on sources, technical knowledge and existing legislation at European and national level and cannot be guaranteed. This information cannot be considered as a guarantee of the properties of the product, it is simply a description in terms of requirements in safety. The methodology and working conditions of the users of this product are beyond our knowledge and control and are always the responsibility of the user. The end user must take the necessary measures to comply with the legal requirements regarding the handling, storage, use and disposal of the products. The information in this safety data sheet relates only to this product, which should not be used for purposes other than those specified.
